# SQL Y TABLEAU

- The most sold homes are those with 3 and 4 bedrooms, followed by those with 2 and 5 bedrooms

# SQL Y TABLEAU

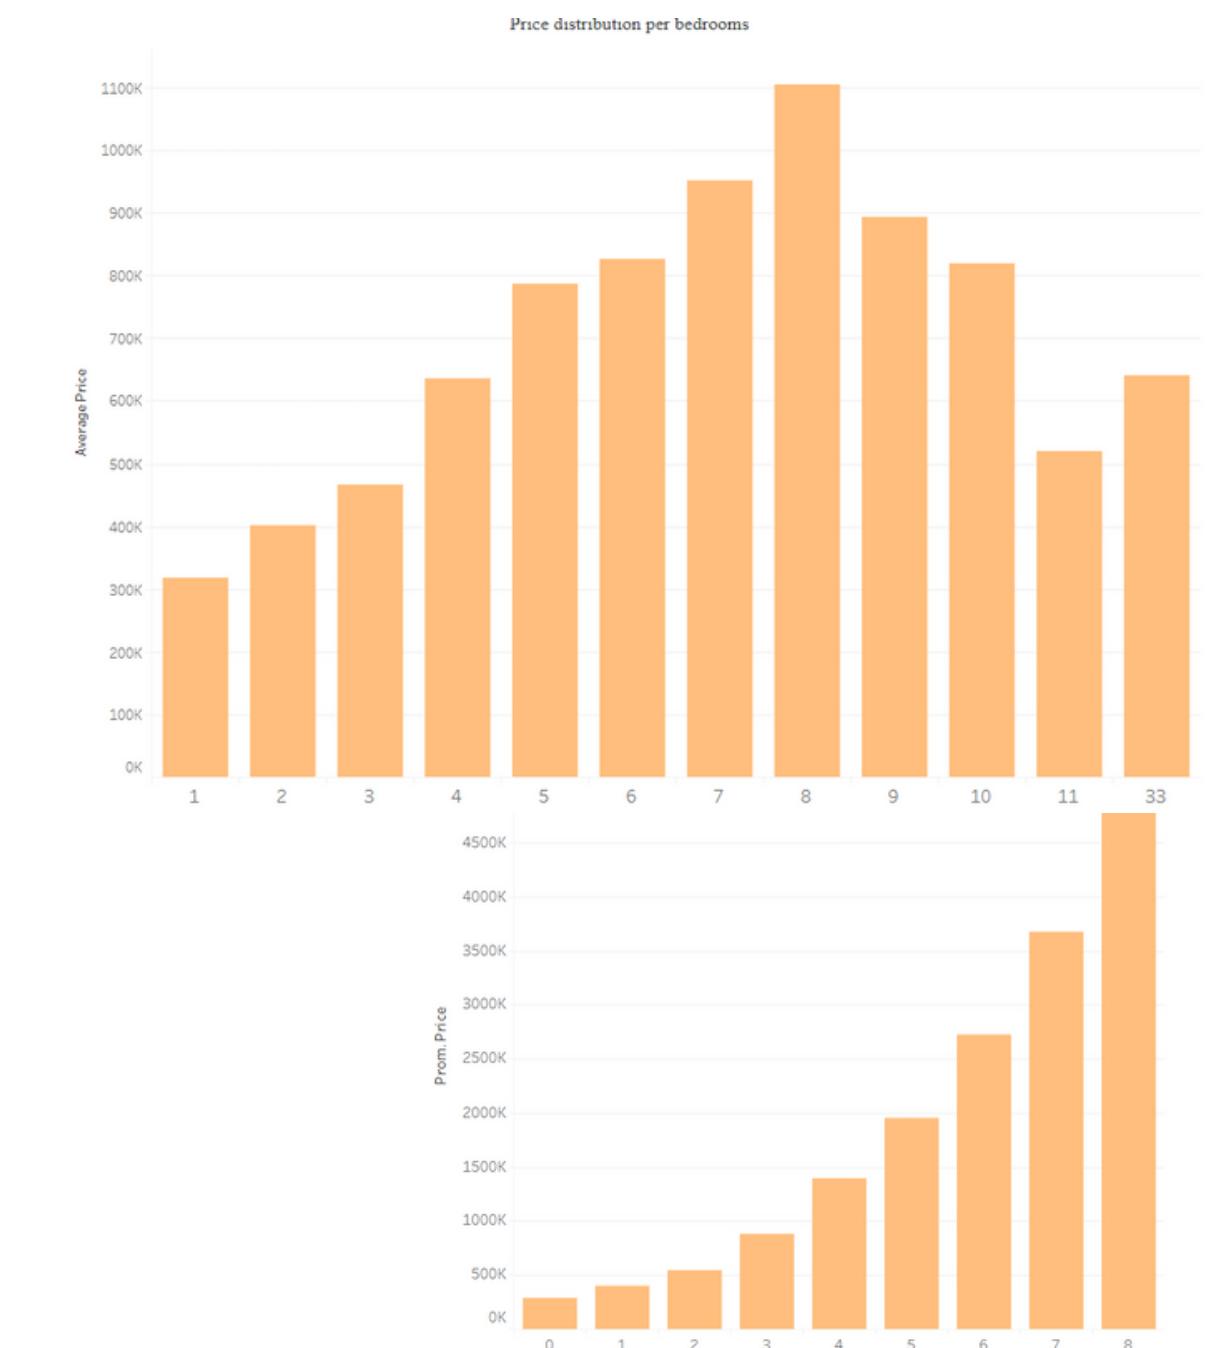

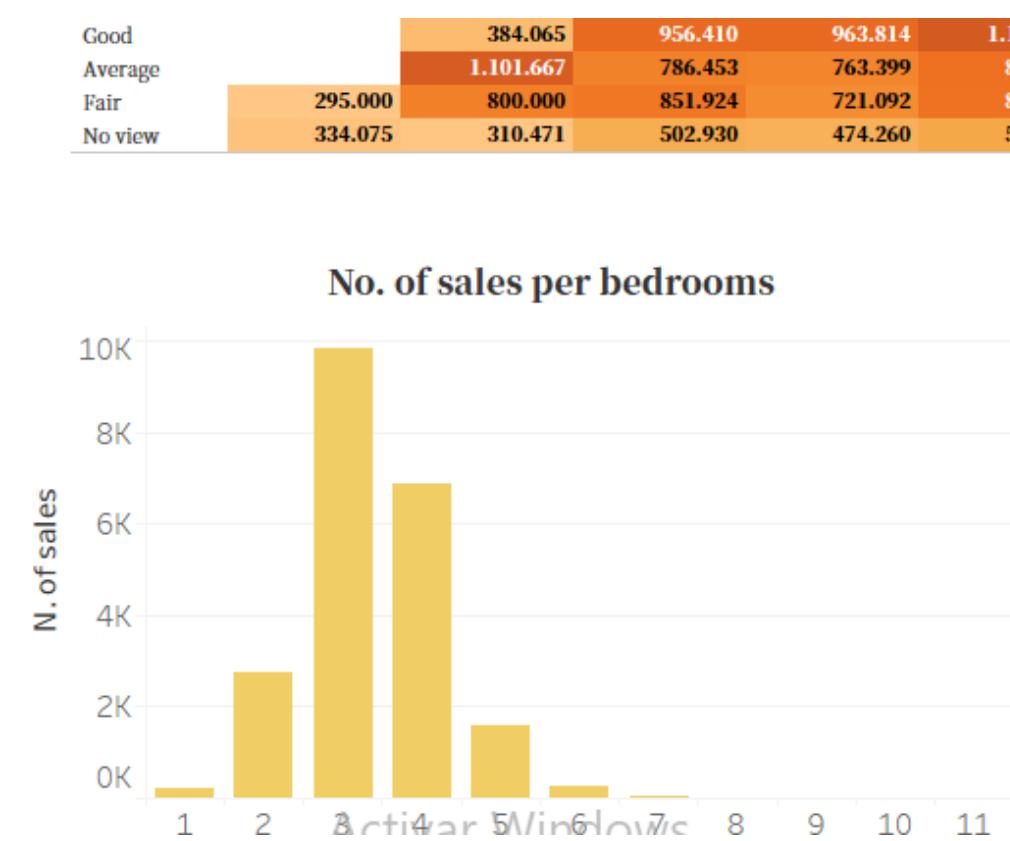

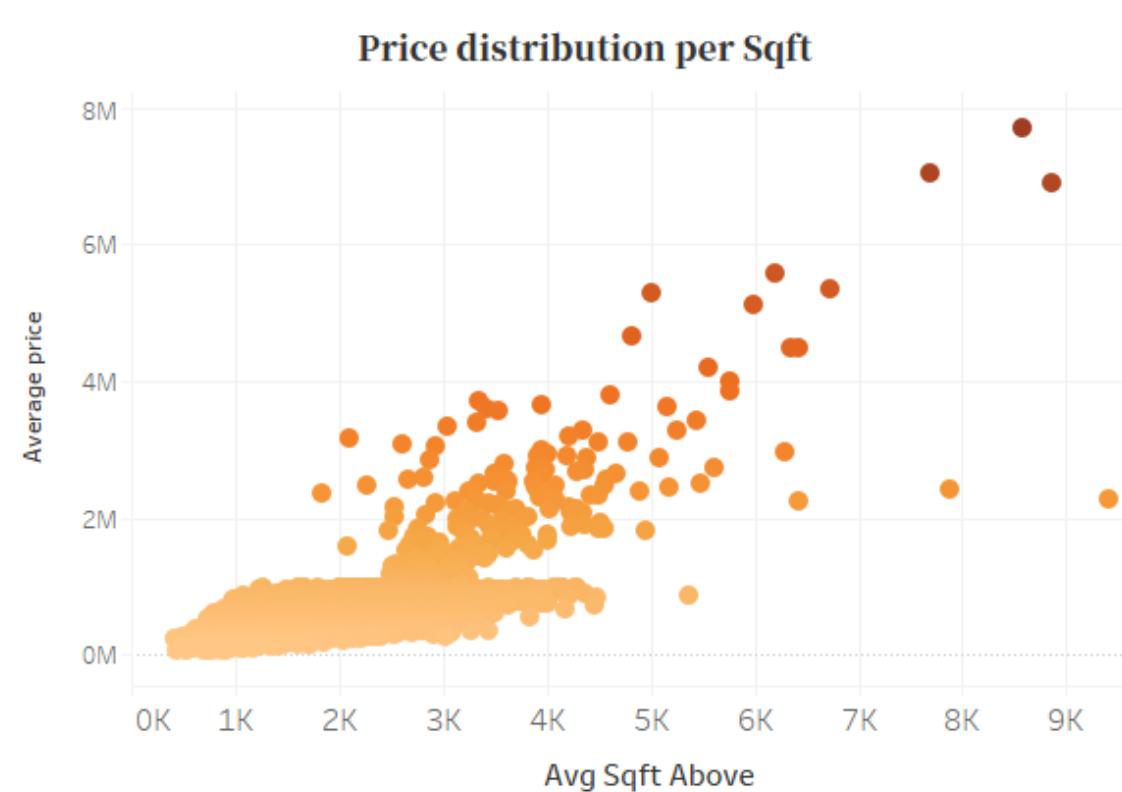

- We have identified some outliers, which we have decided to maintain, since in this context we could find luxury homes.
- 

Price VS Bedrooms

# SQL Y TABLEAU

- Many homes built after 1970 have been sold.
- The condition of the property, the presence of views, the location, the number of bedrooms and other factors are determining factors in the sales process.

# SQL Y TABLEAU

- Through the dashboard we observe that, for the most part, the condition of the houses for sale is quite good, and that since 2015 there has been a notable drop in the sale of houses.
